# ELKO EP

We are traditional, innovative and purely Czech development manufacturer of electronic devices and we have been your partner in the field of electroinstallations for 27 years.

ELKO EP employs about 330 people, exports its products to more than sixty six countries, and has representatives in fourteen foreign branches. Company of the Year of the Zlín Region, Visionary of the Year, Global Exporter of the Year, Participation in the Czech TOP 100, these are just some of the awards received. Still, we are not finished. We are constantly striving to move forward in the field of innovation and development. That's our primary concern.

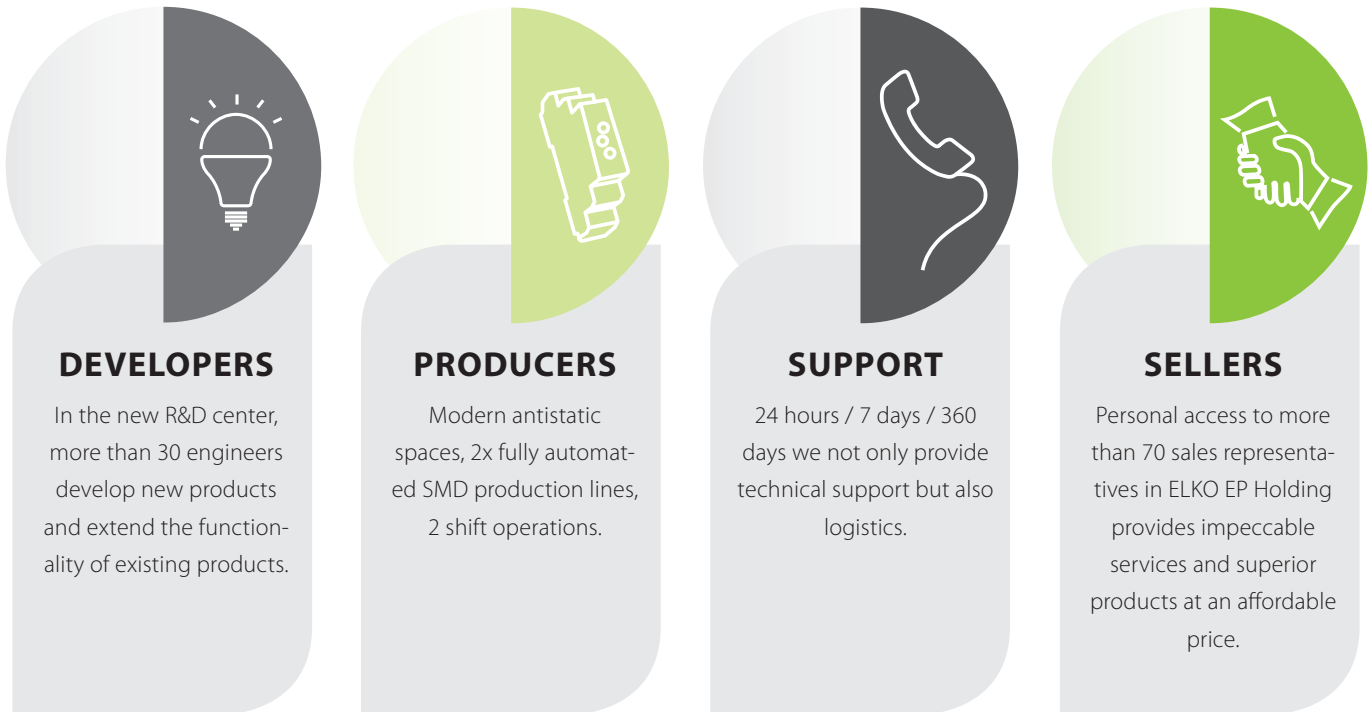

Millions of relays, thousands of satisfied customers, hundreds of our own employees, twenty seven years of research, development and production, fourteen foreign branches, one company. ELKO EP, innovative- a purely Czech company based in Holešov, where development, production, logistics, service and support go hand in hand. We primarily focus on developing and manufacturing systems for building automation in the residential, commercial and industrial sector, a wide range of Smart city facilities and the so-called Internet of Things (IoT).

## Facts and stats

## WE ARE

#### Timers/Relays

[www.elkoep.com/relay-modular-electronic-devices](http://www.elkoep.com/relay-modular-electronic-devices)

A wide range of electronic modular devices, which bring new possibilities to home and office control, monitoring and security, as well as to industrial process control: time relays, installation contactors, staircase automatic switches, time switches clocks, dimmers, thermostats, power supplies units, control and signalling devices, GSM gates, etc.

#### Protection relays for industry

[www.elkoep.com/protection-monitor-relay](http://www.elkoep.com/protection-monitor-relay)

Every household, every object and every machine needs a monitoring relay. There are several reasons why, overvoltage, under voltage, phase failure, asymmetry, frequency, or power factor.

#### INELS Air – IoT devices

[www.elkoep.com/iot-products](http://www.elkoep.com/iot-products)

The new INELS Air product line responds to the dynamically developing network IoT (Internet of Things). These networks enable devices to communicate safely, over long distances and are optimized to minimize power consumption. The product group includes sensors for communication on the Sigfox, LoRa and NB-IoT protocol.

#### Wireless electroinstallation (RF)

[www.elkoep.com/wireless-rf-control](http://www.elkoep.com/wireless-rf-control)

A unique wireless control system providing you perfect control over your home! The RF Control system enables you to control functions such as heating, lighting, electrical appliances and window shutters, all with a single touch. No wall cutting, fast and easy installation, exclusive design of wireless wall switch buttons and other components.

#### Wired electroinstallation (BUS)

[www.elkoep.com/inels-bus-system](http://www.elkoep.com/inels-bus-system)

The BUS system offers a unique solution for new installations (refurbishment) in family houses, hotels and villas. It offers a wide range of functions for both automation and comfort.

#### Energy management

[www.elkoep.com/energy-management](http://www.elkoep.com/energy-management)

Measuring energy consumption in the home or in larger areas is an increasing trend. Our products provide measurement with three different technologies – using a BUS or wireless and with the IoT.

#### Wireless Retrofit Hotel (HRESK)

[www.elkoep.com/hotel-hresk](http://www.elkoep.com/hotel-hresk)

Hotel Room Energy Saving Kit - Solutions for hotel rooms based on wireless technology is designed to function in existing hotels. It is possible to simply elevate the existing electrical installation to a higher level without long-lasting construction modifications.

#### Hospitality Hotel (GRMS)

[www.elkoep.com/inels-hospitality](http://www.elkoep.com/inels-hospitality)

Guest Room Management System – The BUS system is designed mainly for hotels and offers comfortable and easy control of hotel rooms, reception and restaurant.

#### Building management system

[www.elkoep.com/bms](http://www.elkoep.com/bms)

Building Management System is a comprehensive solution for monitoring, and controlling even the most complex of building systems. You can monitor everything on your computer monitor or tablet in the comfort of reception or office.

#### Lighting control

[www.elkoep.com/lighting-control](http://www.elkoep.com/lighting-control)

A sector that offers complete control over all lighting devices. From switching, dimming to controlling your favourite DALI luminaires. Everything can be controlled with a connection to INELS wired or wireless technology.

#### Multimedia

[www.elkoep.com/av-multimedia](http://www.elkoep.com/av-multimedia)

Here you can find extensions for our INELS system and not just for it. Lara Music Players, Intercoms and Door Communicators, Application Communication Servers and 3rd party applications.

#### Switches and sockets

[www.elkoep.com/logus90-products](http://www.elkoep.com/logus90-products)

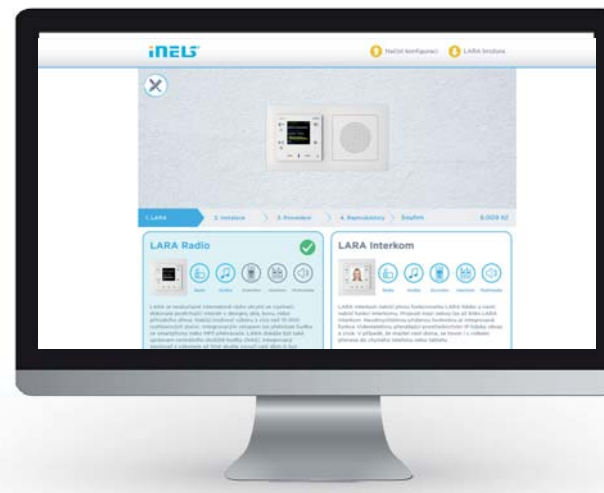

We offer you exclusive switches, sockets and accessories in a standard plastic or metallic design. However, there are also charming luxury frames from purely natural materials such as genuine wood, metal, granite or tempered glass. Be special!

#### Lighting sources

[www.elkoep.com/lighting-sources](http://www.elkoep.com/lighting-sources)

Are you looking for a bulb for your chandelier? In this section you will find among the most common types of bulbs also LED strips and other LED sources, power transformers and installation accessories such as ALU profiles, diffusers.

As when we painted our future housing on paper with crayons when we were young, the LARA configurator allows us to indulge in this hobby to this day. Do you like timeless design of frames made of natural materials? Would you like glass switches and controls? Do not you know if they'll be in tune with the colour of your walls? Will they fit comfortably into a given area?

[lara.inels.com](http://lara.inels.com)

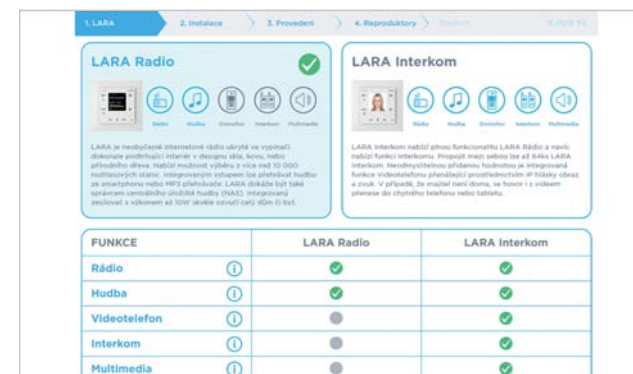

Try the LARA configurator online. You can choose from one single frame to five frames. Combine the features that will keep you entertained!

Just 4 steps in the configurator:

At each step of the configurator, you choose, for example, the installation method, the size or design of the frame (e.g. glass, wood, metal), the wall colour/type and the type of speakers (wall, ceiling, ...). The result delivers an overview and estimated total cost. You can place the order here directly or send it by email.

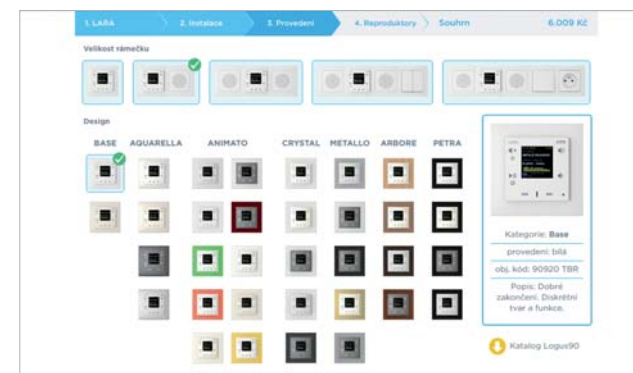

## 1. LARA device type

## 2. Installation type

## 3. Design selection

## 4. Select speakers

# LOGUS<sup>90</sup>

## BASE

Smart finish. Discrete shape of function.

Dimensions: 85.6 x 85.6 mm

BR - White

MF - Ivory

## AQUARELLA

Distinct colors. Shades that characterize the space.

Dimensions: 85.6 x 85.6 mm

GE - Ice

PE - Pearl

AL - Aluminium

IS - Gray

PM - Black

DU - Gold

## ANIMATO

Large selection of colors, modern design and pleasant price.

Dimensions: 94 x 94 mm

BB - White/White

MM - Ivory/  
Ivory

EE - Ice/Ice

PP - Pearl/Pearl

RG - Yellow/Ice

DG - Green/Ice

ZG - Blue/Ice

JG - Orange/Ice

VG - Red/Ice

TS - Brick/Gray

BS - Wine/Gray

AA - Aluminium/  
Aluminium

AS - Aluminium/Gray

SS - Gray/Gray

PG - Black/Ice

PA - Black/Aluminium

PS - Black/Gray

RR - Black/Black

UG - Gold/Ice

UU - Gold/Gold

## CRYSTAL

Brightness and clarity. Shades that bring the shine of crystals into a honed experience.

Dimensions: 94 x 94 mm

CG - Cristal/Ice

CP - Cristal/Pearl

CA - Cristal/Aluminium

CS - Cristal/Gray

EC - Glass - black/Pearl

EG - Glass - black/Ice

EA - Glass - black/  
Aluminium

ES - Glass - black/Gray

EP - Glass - black/Black

## METALLO

Distinct and modern feel. The refinement and brightness of metal enhance the value of the surroundings, and lend inspiration to great moments.

Dimensions: 94 x 94 mm

TP - Titanium/Pearl

IA - Inox/Aluminium

OP - Gold/Pearl

QS - Nickel/Gray

US - Aluminium/Gray

RS - Chrome/Gray

OU - Gold/Gold

## ARBORE

Selection of natural materials. Warm shades of wood with their varying structures create a room full of happiness and sincere comfort.

Dimensions: 94 x 94 mm

FP - Beech Wood/Pearl

JP - Cherry Tree /Pearl

MS - Mahogany/Gray

NA - Walnut Tree/  
Aluminium

## PETRA

Selection of natural materials. Warm shades of wood with their varying structures create a room full of happiness and sincere comfort.

Dimensions: 94 x 94 mm

GG - Granite/Ice

GP - Granite/Pearl

GA - Granite/Aluminium

GS - Granite/Gray

The MEC21 Series Mechanisms for the LOGUS<sup>90</sup> Design Series are made of a special alloy of non-combustible plastics that, due to their strength and elasticity, prevent destruction or damage to the body. The plastic design of the mechanism also ensures secure isolation from the conductive parts of the installation.

The mounting frame is an integral part of the device. The whole device is compact, lightweight and allows for easy and quick assembly without the use of tools.

With the "smart clips" on the front of the device, the frame and cover can be easily snapped on and off. It can be easily and quickly changed and adapted to the current colours of the walls of your interior.

10A - 250V~ - Screwless connection  
16A / 20A - 250V~ - Connection with screw terminals

Quick Clips allow installation to adjust the frame on an uneven wall (two positions for the "snap" frame). Inequality walls will allow the deal and Floating Fingerboard.

Ability to test electrical functionality of your device without disassembly.

Shaped edge of the body mechanism to align the mounting multiple devices.

Depth 20 mm only allows mounting to instrumentation device / box.

Screwless terminals provide fast and quality connection without need of instrument usage. Double terminals on every pole provide multiple connection without need of extra terminals usage.

Ability to test electrical functionality of your device without disassembly.

Order example

MECHANISM MEC21	FRAME	ROCKER / COVER PLATE	COMPLETE PRODUCT
oder code: 21 ... e.g.: 21011 = Single Pole Switch 21111 = Earth Socket	oder code: 909 ... T x x e.g.: 90910 TBR = Single Frame, plastic/white 90930 TCS = Triple Frame, cristal/gray	oder code: 90 ... T x x e.g.: 90601 TBR = kRocker for Switches, white 90652 TAL = Safety Cover Plate for Earth Socke, aluminium	oder code: ... e.g.: 21011, 90910 TBR, 90601 TBR Mechanism, Frame, Rocker / Cover Plate

The entire design series are available from 1 frame up to 4 frames.

The BASE and AQUARELLA series are available from 1 frame up to 5 frames.

Horizontal or vertical position of the frame is possible thanks to their symmetrical shape.

Device covers in red, orange, green for hospital environments.

Motion detector (NO+NC)

Motion Detector - 1000W (Order code 21401/45401 S)  
Motion Detector - 400W (Order code 21402/45402 S)

Controls the connection of electrical circuits according to the detection of motion and surrounding luminosity.  
Compatible with any electrical load.  
Wall mounting.

Technical parameters	Order code 21401/45401 S	Order code 21402/45402 S
Voltage range:	230 V~ - 50/60 Hz	
Consumption:	1 W	
Max. Light load:	1000 W	400 W
Sensitivity regulation:	√	
Operating time regulation:	5 sek. to 5 min.	
Range of detection:	8 m	
Detection angle:	160°	
Outputs:	NO / NC	

NB: NO - normally open; NC - normally closed.

• Operatin

1. Remove the cover of the mechanism to reach the adjustments potentiometers.
2. Proceed to make the necessary adjustments.

• Connection

Dimmer

Electronic Dimmer/Two-way Switch  
- 320W R, C (Order code 21212)

Allows to adjust the luminous flux of one or more lamps.

Technical parameters	Order code 21212
Maximum load:	320 W
Minimum load:	5 W
Two-way function	
Switches:	√
Minimum intensity setting:	*
Fuse:	—
Bulbs:	√
Halogen lamps, 230 V ~:	√
Halogen lamps with ferromagnetic transformer:	—
Halogen lamps with electronic transformer:	√

Note: \* - automatic setting

• Settings

Turn the potentiometer to adjust the intensity of the lamp or group of luminaires.  
By pressing the button, the switch switches to the two-way dimmer function.  
Check voltage on the bottom edge.  
(Order code 21212)

• Connection

Electronic Dimmer/Two-way Switch

Two-way dimmer

Multi-functional Chronothermostat

Multi-functional Chronothermostat

It allows to control manually or automatically the heating/cooling system in accordance with a daily/weekly programming and with preprogrammed temperatures.  
Automatic winter/summer time change.  
Possibility of programming a period of inactivity (holidays).

Technical parameters	21235
Power:	100-240V~, 50/60 Hz
Maximum load:	16A cos $\phi$ = 1
Backlight consumption ON:	<350 mW
Backlight consumption OFF:	<100 mW
Temperature reading range:	-9 °C to 35°C
Temp. monitoring accuracy:	0.5 °C
Operating Temperature:	-10 to 45°C

• Characteristics

Control systems: Heating and/or Cooling.  
Possibility of connecting to the External Sensor.  
Temperature reading: Internal Sensor or External Sensor or both.  
Possibility of maximum of 7 periods/programs per day.  
Key lock.

Multi-functional Thermostat

Multi-functional Thermostat

Allows to control the heating or cooling system in accordance with the required temperature.  
Possibility of connecting the Floor Temperature Sensor, with automatic self detection.  
Possibility to be controlled by the Infrared Remote Control Transmitter.

Technical parameters	21236
Power:	100-240V~, 50/60 Hz
Maximum load:	16A cos $\phi$ = 1
Backlight consumption ON:	<350 mW
Backlight consumption OFF:	<100 mW
Temperature reading range:	-9 °C .. 35°C
Temp. monitoring accuracy:	0.5 °C
Operating Temperature:	-10 .. 45°C

• Characteristics

Control systems: Heating and/or Cooling.  
Possibility of connecting to the External Sensor.  
Temperature reading: Internal Sensor or External Sensor or both.  
Can be remotely controlled via an IR transmitter.  
Timer up to 6h.  
Key lock.

Electrical Blinds Control

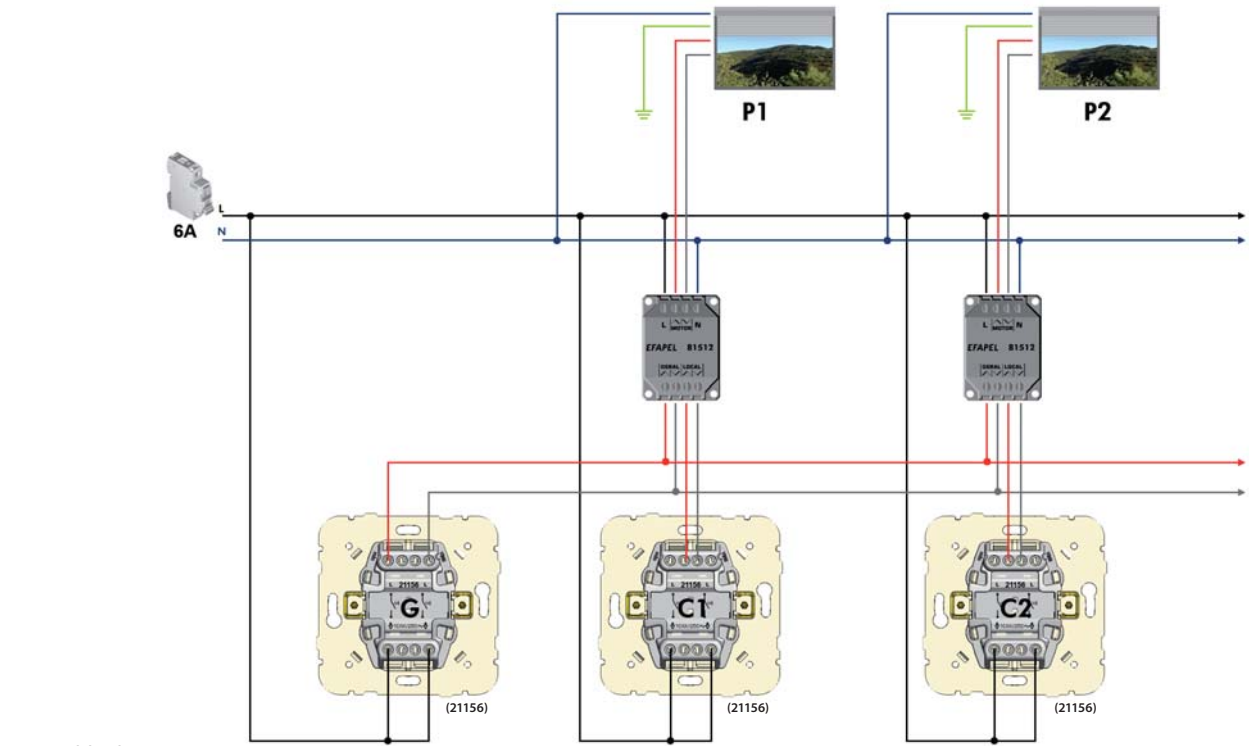

Automatic Relay for Blinds Control (Order code 81512)

Allows to control the individual and general control of a set of blinds.  
Can be installed into a standard wall box, in the derivation boxes near the blinds or in deep wall boxes and behind the wiring devices installed in the same box.

Technical parameters	Order code 81512
Voltage range:	230 V / 50 Hz
Consumption:	1 W
Load capacity:	6 A (1380 W, cos φ=1)
Opening and closing time:	90 s
Electrical blockage:	√
Dimensions (H x W x D):	48 x 36.3 x 24 mm

• **Wiring Diagram**  
Blinds Centralized Installation - with Automatic relays for blinds control (Ref. 81512)

P1, P2 – blinds  
G (21156) - main module  
C1, C2.. (21156) - local module

Note: The protection against two simultaneous orders of open or close applied in the same device or different devices, is guaranteed by the software of the relay.

• **Automatic Relay for Blinds Control (Ref. 81512)**

Electrical Blinds Control

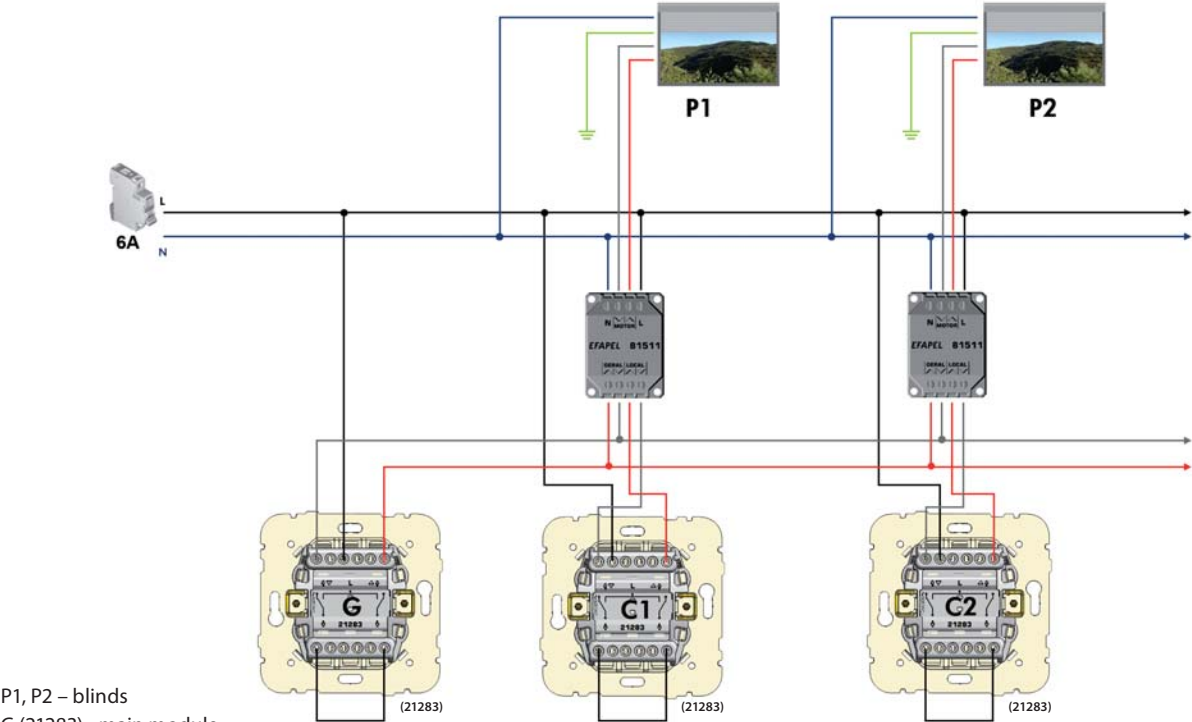

Relay for Blinds Control (Order code 81511)

Allows the individual and general control of a set of blinds.  
Can be installed into a standard wall box, in the derivation boxes near the blinds or in deep wall boxes and behind the wiring devices installed in the same box.

Technical parameters	Order code 81511
Voltage range:	230 V / 50 Hz
Consumption:	1 W
Load capacity:	6 A (1380 W, cos φ = 1)
Opening and closing time:	90 s
Electrical blockage:	x*
Dimensions (H x W x D):	48 x 36.3 x 24 mm

\* Electrical blockage: with the Relay for Blinds Control, the electrical blockage (protection against two simultaneous orders) is guaranteed by the association of the Relay for Blinds Control with the Venetian Double Push-button for Multiple Points Blinds Control (Ref. 21283 / 45283 S).

• **Wiring Diagram**  
Blinds Centralized Installation - with RELAYS for BLINDS CONTROL (Ref. 81511)

P1, P2 – blinds  
G (21283) - main module  
C1, C2.. (21283) - local module

Notes: The protection against two simultaneous opening and close orders in the same device or different devices is guaranteed by the combination of the mechanism (Ref. 21283 / 45283 S) and the relay (Ref. 81511). For this reason, this relay works only with the mentioned mechanism.

• **Functions (Order code 81511)**

# WATERPROOF 48 series

EFAPEL with the series **Waterproof 48** is the right choice for "any terrain" when performing an electrical installation in a moist or dusty environment.

Thanks to IP65 protection and use of thermoplastic with high resistance to weather conditions, the **Waterproof 48** series represents the best solution for installations in industrial areas, garages and gardens.

It is produced in the traditional color gray – RAL 7035 – and in white – RAL 9003, which are colors used in EFAPEL technical cable trunkings.

The series **Waterproof 48** has 34 functions; these can be mounted in simple or double bases and in vertical or horizontal positions.

# LARA... player in the switch

Radio / Music / Intercom / Videophone / Audiozone

LARA Radio

- LARA Radio is a music and internet radio player - the size of a circuit breaker, in the LOGUS<sup>90</sup> design (metal, wood, metal ...).
- LARA is used for example in the kitchen, bathrooms, waiting rooms, offices, receptions, entrance halls, operating rooms or wellness areas.
- LARA can play a radio stream and can store as many as 40 in connection with the internet. However, these can be selected from thousands of stations around the world that provide the correct connection data.
- LARA Radio can play the content of an external music source, for example, such as an iPhone, a smart phone, or an MP3 player. These devices are plugged into a 3.5 mm stereo audio jack input that is located at the bottom of the front panel.
- LARA Radio also plays audio files from the central data repository in which the Logitech Media Server is installed. When using with NAS, LARA NAS App is available.
- Operation is done by touching the front panel or infrared remote (included with the product package).
- LARA Radio is equipped with a 1.5 "OLED colour display (basic music playback information, setup menu orientation, etc.).
- LARA Radio has an integrated 2x10W amplifier, making it very easy to install the device in areas where the power is sufficient.
- LARA Radio is powered by PoE with a maximum voltage level of 27 V DC / 1000 mA. The advantage is one cable (UTP) for power and communication.

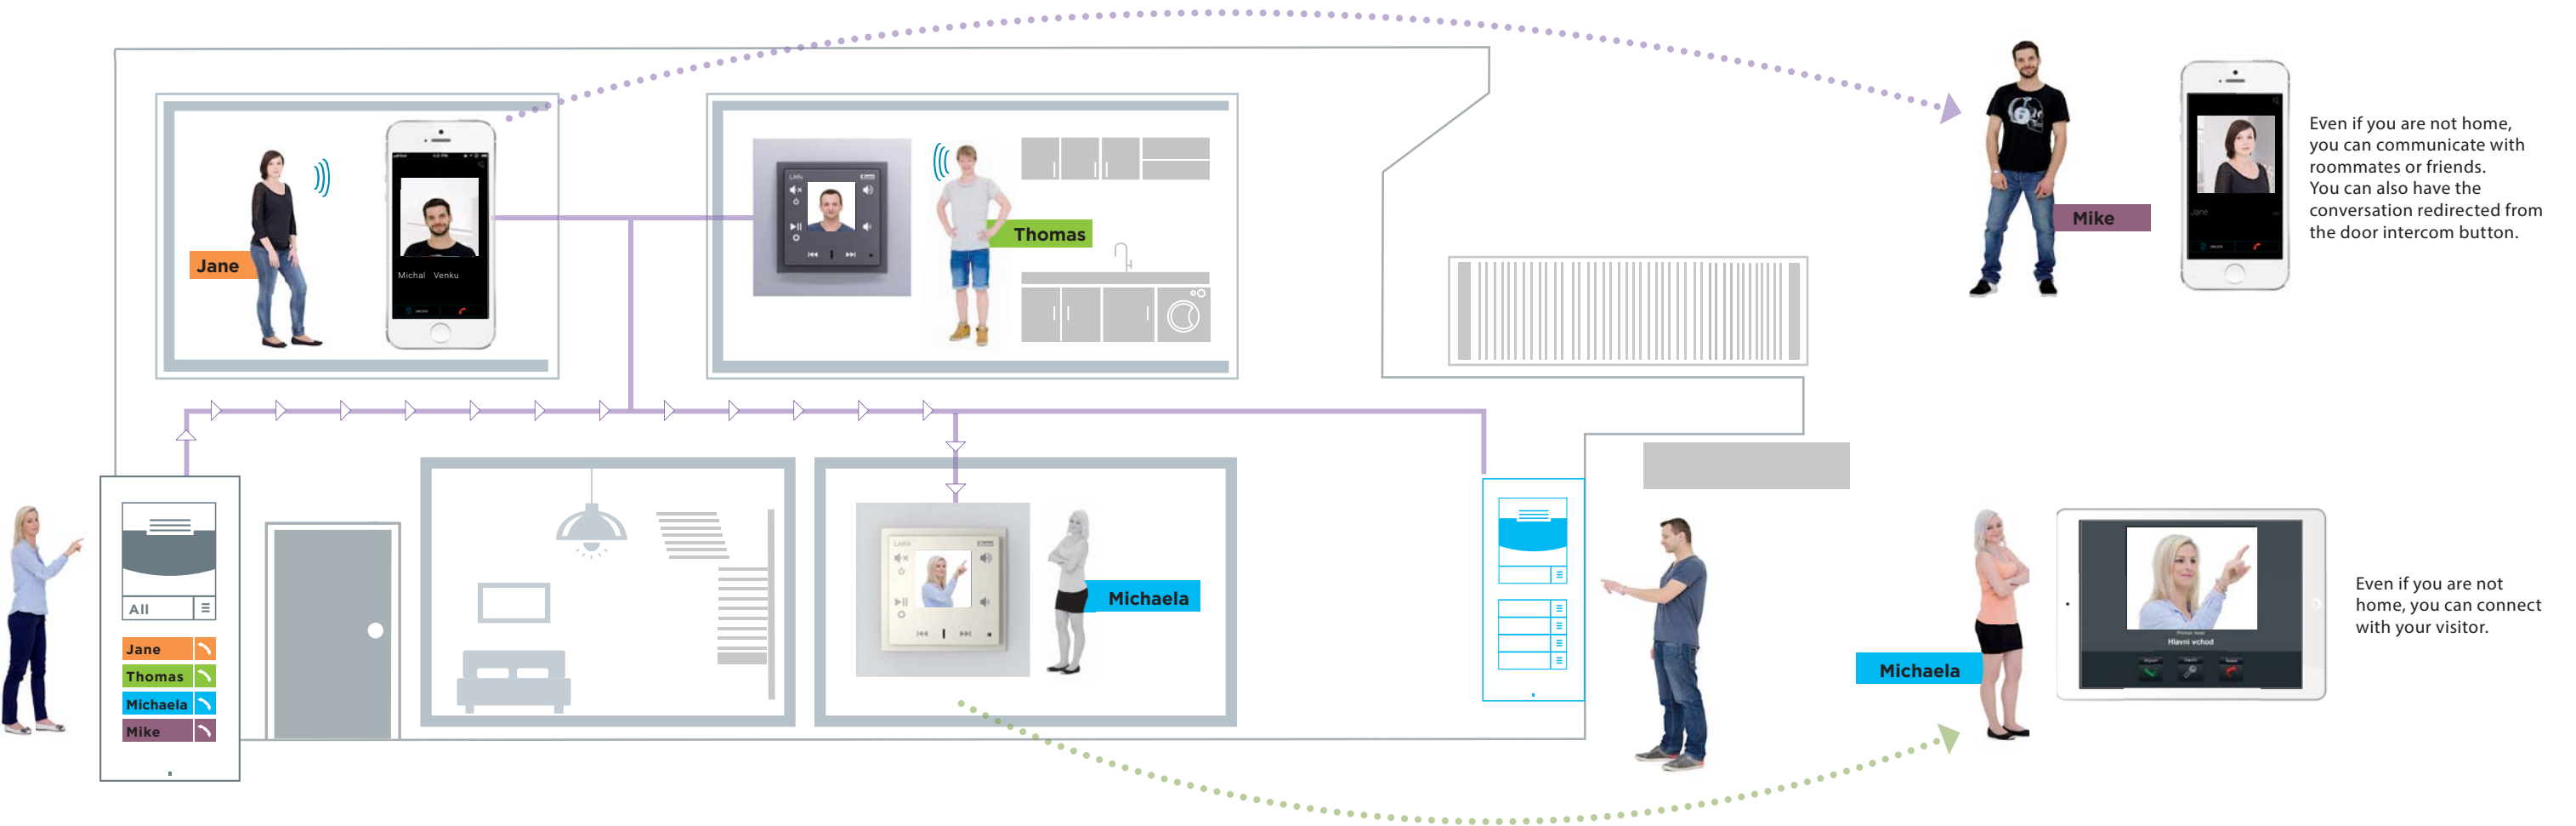

LARA Intercom

- Not only is LARA your radio and music player, but it is also an INTERCOM, VIDEOTELEPHONE and /or AUDIOZONE.
- LARA Intercom is suitable for installation in both residential and commercial buildings.
- INTERCOM allows bidirectional communication between people in the house, up to 8 LARA devices can communicate directly between them.
- In the case of a 2N IP installation (which has an integrated Asterisk disk), Intercom can be used not only between LARA devices but also among smartphones (with iHC-MA, iHC-MI installed).
- VIDEOTELEPHONE allows you to communicate with 2N and ALPHATECH TECHNOLOGIES (IP BOLD) IP from which LARA transmits picture and sound. If you are not at home, the call is automatically redirected to your smartphone.
- You can connect 6 LARA + 2 IP Phones (or combine them with up to 8 accounts in different ways). Once you have connected a "Connection server," you can use up to 30 LARA devices (combined with IP-speakers) in the installation, which is especially suitable for larger installations (buildings, apartment buildings).
- AUDIOZONE, which allows you to play your music in any area in the house.
- LARA Intercom also plays back audio files from the central data repository in which the Logitech Media Server is installed. This feature of LARA can be used within a comprehensive iNELS system or as a device completely independent of house automation. When used within iNELS, the control is part of a comprehensive iHC application. When using with NAS, LARA NAS App is available.

Intercom & Videophone

LARA allows you to communicate across the house (Intercom) as well as the door-to-door with the door phone (Videophone).

Up to 30 devices (LARA, phone, tablet ...) can be connected to the system. LARA can communicate with you outside of the house - all you need is an internet connection.

Installation

Flush mounting

The LARA device can be installed in an installation box (along with switches), in a design from one to five frames. This installation is recommended in places where at least one installation box is installed or in a place with hollow walls.

Surface mounting

Surface mounting enables installing the LARA device in places where structural modifications are impossible or difficult to perform. The box is designed for one frame only with selection of installations of external speakers mounted on walls or ceiling.

	<b>PoE SWITCH</b> Provides LAN connectivity and PoE power supply for up to 5 x LARA. Power supply AC 230 V.	6605		<b>NAS EXTERNAL STORAGE</b> Two-chamber NAS server with the function of hosting, sharing and data security.	7212

- The wireless controller is used to control switches and dimmers (lights, gate, garage door, blinds, etc.).
- **RFWB-20/G:** two buttons enable control of two units independently.
- **RFWB-40/G:** four buttons enable control of four units independently.
- The flat design with level base makes it ideal for fast installation on any surface (fixation with adhesive or screws in the installation box).
- When pressing the button, it sends a set signal (ON/OFF, dimming, time switching OFF / ON, blinds up/down).
- Sending a command is indicated by a red LED.
- In LOGUS<sup>90</sup> switch frame design (plastic, glass, wood, metal, stone).
- Option of setting light scenes, where with a single press, you can control units of iNELS RF Control.
- Battery power supply (3 V / CR2032 - included in the supply) with battery life of around 5 years based on frequency of use.
- Range up to 200 m (in open space), if the signal is insufficient between the controller and unit, use the signal repeater RFRP-20 or protocol component RFIO<sup>2</sup> that support this feature.
- Communication frequency with bidirectional protocol iNELS RF Control.

Device description

RFWB-20/G

RFWB-40/G

Examples of placement

LOGUS<sup>90</sup>

We bring you switches, sockets and accessories in standard, plastic or metallic design, but you will be impressed most by enchanting luxury design of purely natural frames: real wood, metal, granite and tempered glass - crystal

Flat design - the depth of the device is only 20 mm!

- The wireless controller in design LOGUS<sup>90</sup> measures the room temperature by internal sensor, and based on the set temperature, it sends a command for heating / cooling.
- Option of setting a daily/weekly automatic control program.
- The temperature controller can be used in one of two ways:
  - For controlling an additional heat source (heater, oil radiator, radiant panel) with multi-function switching units RFSA-6x, RFUS-61 or RFSC-61.
  - For control of floor heating, when the internal sensor scans the room temperature, and based on the value, controls the heating unit RFSTI-11B, which monitors the critical floor value by external sensor.
- Manual control by buttons on the unit.
- Range of measured temperature 0-55 °C.
- The backlit LCD display displays the current and set temperature, status (ON/OFF), battery status, day of the week, current time, etc.
- Battery power (1.5 V / 2x AAA - included in supply) with battery life of around 1 year based on frequency of use.
- The flat rear side of the device enables its placement anywhere in the room where you wish to measure temperature.
- Range up to 100 m (in open space), if the signal is insufficient between the controller and unit, use the signal repeater RFRP-20 or protocol component RFIO<sup>2</sup> that support this feature.
- Communication frequency with bidirectional protocol iNELS RF Control.
- Color combination of temperature unit in design of frames LOGUS<sup>90</sup> (plastic, glass, wood, metal, stone).
